Eutelsat selected by AfricaXP for DTH satellite services across Sub-Saharan Africa

Paris, 13 February 2020 – Channel network and content distributor AfricaXP has signed multi-year agreements with Eutelsat Communications (Euronext Paris: ETL) for Ku-band capacity on two Eutelsat satellites, positioned at 16° East and 7° East.

This capacity will enable AfricaXP to extend the reach of its DTH free-to-air TV platform, *Premium.Free*. Currently broadcast in West Africa, the platform will leverage the unparalleled coverage of Eutelsat's 7° East hotspot to roll out a regionally customized offer of 23 channels across Eastern and Southern Africa from mid-February. In addition, AfricaXP will launch an inaugural, 10 channel French language bouquet from Eutelsat's 16° East position with its powerful footprint over French-speaking African countries.

Craig Kelly, AfricaXP's CEO, said: "*Premium.Free has been entertaining viewers*

in Anglophone West Africa for the past year by providing a pay-TV quality experience to the public free-of-charge as an unencrypted satellite service. Eutelsat's 7° East and 16° East positions offer us comprehensive geographic reach in Africa's key Western, Eastern and Southern markets where they serve large audiences. This has ignited a strong interest from our advertising partners."

Nicolas Baravalle, Director of the Sub-Saharan Africa region at Eutelsat, added: *"Eutelsat is delighted to be supporting AfricaXP in rolling out this multichannel Free-to-Air model across Sub-Saharan Africa. Moreover, this partnership reinforces the strength and desirability of these two orbital hotspots for the Sub-Saharan region, which are becoming increasingly sought after by broadcasters."*

About AfricaXP

AfricaXP is a leading owned and operated channel network and content distributor that has licensed its channels and content to leading African, global broadcast and digital platforms including *Premium.Free*, its own African based free-to-air satellite and OTT platform.
